

HydraBain™ HydraBath

Superior Quality
Cleansing and Hydrating
Washcloths

- Antibacterial formula
- Hypoallergenic
- Used by health specialists

Texel
A DIVISION OF **3M** INC.

Clean and hydrated from head to toe

Without a single drop of water

- **HydraBath™** washcloths are an alternative to conventional baths, showers as well as bed baths.
- The hypoallergenic solution contained in each washcloth features a rinse-free agent and moisturizers that leave the skin clean, smooth, and soft.
- Each pack contains everything you need to fully bathe one adult.
- **HydraBath™** eliminates the need to gather together conventional bath items and launder bath linens.

Innovative packaging

- Each package consists of one resealable packet containing eight (8) premoistened washcloths, suitable for any part of the body.
- Safe for the environment, packet is **recyclable**.
- Easy-open tab, easy closure to keep washcloths warm.
- A wide oval opening makes washcloths easy to remove.
- You touch only the washcloth you remove, eliminating risks of cross-contamination.

Soft on the skin

- Soft **HydraBath™** is made from a special combination of rayon and polyester non-woven fibers.
- The washcloths are four (4) times thicker than regular wipes, offer a maximal absorption and stay evenly moistened.
- **HydraBath™** is recommended for people with sensitive skin.
- Friction caused by standard washcloths is eliminated, allowing skin soothing and providing greater comfort to individuals who are bedridden or mobility impaired. What's more, using **HydraBath™** helps reduce the risk of bedsores.

The
HydraBath™
system includes
8 washcloths,
suitable for all
body parts.
